Analysis Lamp

For short- and long-wave UV radiation, for examination of the fluorescent properties of many inorganic and organic substances and in chromatography to differentiate among oils, dyes, minerals, nutrients, textiles etc. on the basis of their fluorescent colour.

Caractéristiques techniques :

Wavelengths: 254 nm and 366 nm
Power: 4 watts each
Power supply: 230 V, 50/60 Hz
Dimensions: 205 x 70 x 55 mm
Weight: 1.0 kg
